Quality Engineer

H&T Presspart and H & T Industrial are members of the Heitkamp and Thumann Group and is a world class manufacturer of deep-drawn components for various markets.

Working alongside a highly skilled team, we are looking for a Quality Engineer to prevent & resolve any quality issues.

Essential skills and experience:

- Experience of high volume manufacturing processes.
- Experience in the use of various quality improvement tools and techniques. (i.e. 8D, 5Why, Fishbone, etc.)
- Good level of ability in using various software packages, e.g. Spreadsheets, word processing, statistical.
- Ability to use various types of measuring equipment.
- Practical approach, with the ability to relate to all levels in the business
- Good written and verbal communication skills
- Good level of confidence in relation to dealing with external personnel
- High level of computer literacy
- Able to work on own initiative
- Able to lead and work as part of a team

Responsibilities will be:

- Resolution of quality issues through use of 8D process and other techniques, in conjunction with production personnel.
- Involvement in NPI – including generation of controls plans, flow charts and conducting FMEAs
- Review of measurement techniques and development of new techniques where appropriate
- Involvement in the development and ongoing monitoring of quality systems and procedures.
- Involvement in customer and internal project activities where quality input is required.
- Conducting internal audits as part of the planned programme and also additional audits as required.
- Participation in the supplier audit programme.
- Involvement in customer audits and assistance in addressing corrective actions arising from such.

Desirable skills and experience

- Pharmaceutical, Automotive and/or Aerospace experience

Hours - 40 hrs per Week - Monday to Friday

Benefits - 25 days holiday plus Bank Holidays, Profit related bonus scheme, BUPA Health Care, Pension.

Applications in writing to Jean Battersby at jean.battersby@presspart.com or to H&T Presspart, Whitebirk Industrial Estate, Blackburn, Lancashire, BB1 5RF

Closing Date Friday 24th May
